We Will

Unhindered

All the world will see that You're alive and You set us free
Where ever we go there You are
You offered up Your life that we would go and be Your light
To all the world Your love will shine

Your love is taking over
Your love is taking over

We're gonna let our hearts burn for You
We will, we will
We're gonna let our live sing for You
We will, we will

We're gonna let our light shine for You
We will, we will
We're gonna let our hearts burn for you

Love will be our guide, truth will be our desire
Your love is all we need
You're everything, You're everything
We live for You
