

100 to Zero

Union J

It was always more than love in the club
So I thought we were more than enough
We used to say money and a [?]
You could be [?] in love

[?] away from the charcoal
Thought we had it all planned out
Down to the floors and the rooms in our house

I wish we were still flying
'Cause then I could still be a hero
You said that it's not what you need though
We went from 100 to zero

I wish we were still falling
'Cause then I could still be a hero
You said that it's not what you need though
We went from 100 to zero

We went from 100 to zero
100 to zero, 100 to zero
100 to zero, 100 to zero
100 to zero, 100 to zero

It was always gonna be me and you
It's like you needed me to breathe that air too
Used to say we got it all through the madness
We had it all mapped out with a view

[?] away from the charcoal
Thought we had it all planned out
Down to the floors and the rooms in our house

I wish we were still flying
'Cause then I could still be a hero
You said that it's not what you need though
We went from 100 to zero

I wish we were still falling
'Cause then I could still be a hero
You said that it's not what you need though
We went from 100 to zero

We went from 100 to zero
100 to zero, 100 to zero
100 to zero, 100 to zero
100 to zero, 100 to zero

I wish we were still falling
I wish we were still falling
'Cause then I could still be a hero
You said that it's not what you need though
We went from 100 to zero
