

## Wild Fire

Union J

I can't explain, what I see  
Girl in the dark, when you light up  
Just like a flame, and everybody else  
Just fades, away (away, yeah)

She smile and she light up the dark  
I get lost in the embers (embers)  
Her smoke is filling my lungs  
Get me so high (high)  
She sparks through my body like [?]  
Like a 5th of November (-vember)  
And God knows I'm in it, it's not finished  
Feel my soul ignite

The way she burn it down, burn it down, burn it down  
The way she burning out, burning out, burning out, yeah  
She wild like fire, she wild like fire  
So baby, just burn me now, burn me now, burn me now, yeah

Straight up, no talk  
We run wild like forest fires  
When we light up (light up)  
And when we walk (we walk)  
With every step  
We take a step too far (hey, yeah)

She smile and she light up the dark  
I get lost in the embers (embers)  
Her smoke is filling my lungs  
Get me so high (high)  
She sparks through my body like [?]  
Like a 5th of November (-vember)  
And God knows I'm in it, it's not finished  
Feel my soul ignite

The way she burn it down, burn it down, burn it down  
The way she burning out, burning out, burning out, yeah  
She wild like fire, she wild like fire  
So baby, just burn me now, burn me now, burn me now, yeah

Wild fire  
Wild fire  
Wild fire
