

Tonight (In The City)

Uniting Nations

Tonight baby we can walk in the city
Everything will feel alright.
Tonight girl you know you looking so pretty
Shining like a star
So bright

Tonight baby we can walk in the city
Everything will feel alright.
Tonight girl you know you looking so pretty
Shining like a star
So bright

Tonight
Tonight

We started out as friends
But I know it have to change
The day you looked at me that way
I've got this feeling in my heart
So special I can't describe
There's something magic in your eyes
And when I try to work it out
Well I just can't understand
This feelings taking over me
Although our love was never planned
I'm happy that you can see
Together we were meant to be

Tonight baby we can walk in the city
Everything will feel alright.
Tonight girl you know you looking so pretty
Shining like a star
So bright

Tonight
Tonight

Tonight baby we can walk in the city

Tonight girl you know you looking so pretty

Tonight baby we can walk in the city
Everything will feel alright.
Tonight girl you know you looking so pretty
Shining like a star
So bright

Tonight
