

Relative to Me

Unitopia

"Does this feel weird to you?" she said to me
As she leaned forward in her seat
As we waited for the show to begin
I said, "Our life is just a set of complex equations".

It's all relative to me
It's like that place you're in, between the dream and awakening
(2x)

She said, "Sorry to hear that it didn't work out".
And I said the same to her, but I'd always had my doubts.
Then your mind starts thinking of all the possibilities
Like a thousand 'what if's?' competing for space in your head

It's all relative to me
It's like that place you're in, between the dream and awakening
(2x)
