

# AGONY

UnityTX

No  
You can never know this struggle  
Brought up into this world just to die  
What do you see  
When you look in my eyes

Is it pain?  
This realization  
A target up on my back  
Is a deathwish

I sleep with one eye open  
Cause my mind  
Is in dis  
Stress

All I want to know is  
Does it ever fucking end

All I want  
And all I need  
Just give me mercy  
Another day  
Unmotivated  
I'm waking up  
To the same shit  
Tryna find my way out  
Dog pound I'm still locked in  
Take everything from me  
I feel it  
Killin me inside  
Like an illness

I think I been losing my mind  
Feel I been losing my mind

And what don't make sense  
Is that all of this  
It ain't my fault  
But I still I feel the burn

A heavy head of stress  
Fill my thoughts with lead  
Because I  
A'cause I  
A'cause I

Know  
You can never know this struggle  
Brought up into this world just to die  
What do you see  
When you look in my eyes

Is it pain?  
This realization  
A target up on my back  
Is a deathwish

And I'm so fucking sick of this  
Agony

What is my purpose if all good means come to an end?  
I wish I could pretend that nothing ever is wrong  
And carry on with my life  
But id be living a lie

You can never know this struggle  
Brought up into this world just to die  
What do you see  
When you look in my eyes

Is pain  
The realization  
Of the target up on my back  
I know that  
Its a deathwish  
You could never know my struggle  
Let me go

All I want  
All I need  
All I neeeeeeed  
Just give me mercy
