No we don't need to say much  
I know  
No we don't need to say much  
I know  
No we don't need to say much  
I know...

Diamonds in your eyes  
As I touch your face  
You love it  
Fucked up bitch  
With a taste for destruction

Feel no pain  
As the blade keeps runnin  
So in lust  
While the blood keeps comin

As I touch your face  
You love it  
Fucked up bitch  
With a taste for destruction

Feel no pain  
As the blade keeps runnin  
So in lust  
Comin on and on  
Comin on and on

Comin on and on
