

Hardhead

UnityTX

Even at a young age I was up to no good;
Running with the homies around my hood
Same shit different day I'd get out if I could
But I was just a little punk dishin' out dirty looks

Out in the streets, wanted to be different
Getting into fights always beaten senseless
Momma said knock you out but I didn't
I just wanna live my life now tell me, do you get this?

Never followed the guidelines given; I always suffered
Every time a life lesson was learned, I had another
The streets was my home; Most def, I had brothers
Kicking rocks, head knocks, watching out for eachother

I could live like this forever
Thought my life had went south
Pushing wood, getting better
I had it all figured out

I am a Hardhead, dirty kid with a mouth

You can kick me out to the streets
Disconnect me from the whole
I got mines to keep
Cause I know this is the way I'm meant to be
I'll be a hardhead from my birth til I
D I E

You can kick me out to the streets
Disconnect me from the whole
I got mines to keep
Cause I know this is the way I'm meant to be
I'll be a hardhead from my birth til I
D I E

If you could see the world in the way that I see
You wouldn't think this place is shit
Full of pain and deceit

But it's people like me who you want to see beat
Beat down by the police; locked away with no key
You make me so sick; and I don't understand that
Instead of tossing me a hint you have to fuckin overhand it

Everyone is fucking human and you're one just like me
So get off your pedestal and try facing defeat
Goddamn

I'm just a kid with ambitions in this
Ill-Minded Society that I don't fit in
It takes a lot to keep my patience
But sometimes I run out and take a swing with the fist

It's not who I am, I live for the bliss
Not to be the one picking who to dismiss
One of the hardheads, angry with a straight face

Even though we don't care, We can still show you hate

Mothafucka

Shut ya mouth, you don't want none of this
You just don't wanna take a chance, so save your breath
Don't catch a hit

You can kick me out to the streets
Disconnect me from the whole
I got mines to keep
Cause I know this is the way I'm meant to be
I'll be a hardhead from my birth til I
D I E
