

# KILLING ALCHEMY

UnityTX

I got my heart lost in turmoil  
Spirit in a hole  
Sinking deeper in the depth  
Lower than it goes  
Grimy like a fiend  
Yea I been cravin' mo'  
I put myself in harms way  
Because I gotta know  
Why you do wrong to me  
The pushin' and forth  
And when I curse about you  
I still don't feel remorse  
It's like a thousand knives  
Forced into my eyes  
Carving out the shape of you  
So incandescent

Fuck givin' into what you did  
Tryna fool me by demeaning everything I've been  
Hoe  
You should've kept it at the absence  
Know I don't need you  
Cause lately I feel like I'm lackin' my cadence  
I'm ruminating  
Hesitation  
Cause it's the same cycle  
I'm so sick of all the waiting  
To burn slow  
My back to the wall  
A fire in my chest  
I feel it ripping through my flesh  
Leave me restless

Ain't no coming back  
This is forever

You got a stronghold  
With no chance to break  
Killing alchemy  
What you doin' to me?  
Get out of my head  
All that talk is cheap  
Nevermore to be  
Nothing more to me  
And I should know how  
When I'm with company  
All the misery  
Drives me wickedly  
I ain't myself  
Cause you took a toll on me  
Killing alchemy  
Killing alchemy

Do you know the animosity you think I show  
Do you know the reason why I'll never let it go

Good riddance

Knock off the dust  
Abrasive  
I need to clear my mind  
X it off  
Just as I face 'em  
And thank you for the venom  
But I'd rather use my own  
Ain't no need for all the dealing  
I'll destroy myself alone  
Pessimistic  
Mindfucked  
So sadistic  
Cause every fuckin' thought I form  
It's got me feelin' twisted  
Demented  
Of my volition  
I'm missin' the part of me  
That never felt like someone was suspicious  
I'm faithless  
Don't have discretion for no one  
Cause everyone around me  
Is a factor of the build up  
Destruction  
If I explode I'll make a statement  
But you don't get to walk away  
Because I'm fuckin' caving  
That's bullshit

I'll see you in hell motherfucker

You got a stronghold  
With no chance to break  
Killing alchemy  
What you doin' to me?  
Get out of my head  
All that talk is cheap  
Nevermore to be  
Nothing more to me  
And I should know how  
When I'm with company  
All the misery  
Drives me wickedly  
I ain't myself  
Cause you took a toll on me  
Killing alchemy  
Killing alchemy

Conflicted by detriment  
Why the fuck would you watch me living in turmoil  
This animosity  
I wonder if you ever face your pain alone  
Conflicted by detriment  
Why the fuck would you do what you never would tell  
So every day I hope  
That I'll see you in hell motherfucker, oh

You got a stronghold  
With no chance to break  
I'll live in agony  
And see you in hell  
You got a stronghold  
With no chance to break  
I'll live in agony

And see you in hell
