LOST IN DAYZ...

UnityTX

Every day I feel
Life is hard to live
Failing again
How much more of this can I take

We were all just kids
So what the fuck is life now
Was lost in days
Watching everything fade away

We were all just kids
So what the fuck I do now
Cause every day it's like
I wanna blow my brains out

I feel the choke
My head is heavy
Slippin' away
I can't keep cool
It's driving me crazy
Just breathe

We were all just kids
So what the fuck is life now
Was lost in days
Watching everything fade away

We were all just kids
So what the fuck I do now
'Cause every day it's like
I wanna blow my brains out

The back and forth
Is bleeding me slowly
Don't want to speak about my problems
I always feel lonely
So manic

When I go deeper
The blackened encloses
Still fighting for my fuckin' life
'Cause it's hard to keep focus

Every day I feel
Life is hard to live
Fuckin' it up
How much more of this can I
Take

I don't give a
Motha
Fuck about
The bullshit
I just wanna get my damn head straight

Get my head straight
Get my head straight

Get my head straight
Get my head straight

Wake up
Feeling
Down a
'Bout some
Dumb shit
That I
Cannot
Fuckin' change

Shit I can't change
Shit I can't change
(I can't change)
Shit I can't change
Shit I can't change
