By any means
I'm gon' do what I want
Let it eat you alive
Because you know you was wrong
There's nothin' left for me here
I wonder where do I go
Same problems on different levels
The only thing that I know

I'm facing hell to get a grip
What's next
Same shit I've been dealing with
Since the first step
No inner peace, don't get no rest
I been stressed
Complicating the situation
I struggle with
Feel like I'm fallin' and dissonant
Hate myself I'm so sick of it
Crawling inside of my soul
Just to seek omniscience
I'm stuck in my head
My thoughts I see red
It's drilling deep down to the core
Still don't how I'm dealing

Always some bullshit
And we know it doesn't matter
Whatever I say
So throw me away
Are you against me?
You'll regret
Your disrespect
I'm ready to forget your face
(I'm ready to forget your name)

And by any means you know
That I'm gon' do what I want
Let it eat you alive
Because you know you was wrong
There's nothin' left for me here
Wondering where do I go
Same problems on different levels
Only thing that I know
It's gotta come to an end
And never again, forsaken
A trust and a promise I held
Had me awaken
Wanna blame you for this
Restraint I been in (I'm trapped)
So come with the peace and let go

Kill 'em

I can't stop thinking the worst
I can't stop thinking the worst
Let it go

I can't stop thinking the worst
I can't stop thinking the worst

You made me walk on the edge
I'm in the back of my mind
I paid my dues
So color me blind
How can you live
With the shit that you did
So callous and vile
It's such a waste
Mouthful of distaste
I'm shackled to these chains
And about to break
You were only
Wanting the most
And I see now
How you'll never change

And by any means you know
That I'm gon' do what I want
Let it eat you alive
Because you know you was wrong
There's nothin' left for me here
Wondering where do I go
Same problems on different levels
Only thing that I know
It's gotta come to an end
And never again, forsaken
A trust and a promise I held
Had me awaken
Wanna blame you for this
Restraint I been in (I'm trapped)
So come with the peace and let go

I can't stop thinking the worst
I can't stop thinking the worst
Let it go
I can't stop thinking the worst
I can't stop thinking the worst

I can't stop thinking the worst
I can't stop thinking the worst
Let it go
I can't stop thinking the worst
I can't stop thinking the worst
