

# WALK WITH ME

UnityTX

On God a weapon aimed upon me  
Is gon fail to prosper  
I beat the odds  
I'll never bite the bullet  
Fuck your offer

You steady preach  
Bout keepin' the peace  
You need to shut the fuck up  
Cause ain't no way that I can change the fact that I'm a nigga

It's like I'm only to  
Exist to extent  
I'm worried walking out my front door  
Can't think right bout what to expect

I feel the cold  
When I walk in the shadow of death  
Like a red dot put on me  
And left a hole in my chest

I can feel it  
Creepin  
Up

Feel it send chills down my spine

Stay vigilant  
With murder on my mind

Keep it tucked  
As I move with the pace

Come take walk with me  
And let me show you the way

Ain't another need for an introduction  
You know what it is  
Been survival of the fittest mothafucka  
I don't waste no time  
It's either  
Kill or be killed  
Reality set  
There ain't no respect  
There's no hope

Ain't no better time to set it off  
I'm through with the pain  
There's nothing to lose  
So fuck it  
Give me the separation  
Cut like a razor blade

I'm searching for a reason  
On my mama  
Know I gotta keep it maintained  
Don't need to fuck with that crooked shit

Cause I'm only up in my lane

We never known to be equal  
So stop acting like we the same  
(Bitch)  
I'm stepping out to the warzone  
So its fuck you and ya whole clique  
You pullin up with them straps  
But I ain't gon fret  
Cause you ain't gon do shit  
And I put that on the gang  
So you might as well walk with me

So come and take a walk  
And let me show you the way  
Come and take a walk with me  
Come and take a walk  
And let me show you the way
