

WORLD OF MALICE

UnityTX

Money, power, respect
What would make you inflict?
What would make you commit?
Is this survival?
In a world of malice

Eternal war, this grief is part of me
It never ends, severe reality
If we could change, what would come of things?
If all we know is guilt, murder, malice, greed
With my own eyes I witnessed losing peace
Is it the trauma or hell surrounding me?
Can't trust a soul, it's always lie or cheat
Twisting the dagger then watch me bleed

This is eternal war
In a world of malice
This is eternal war
In a world of malice

Stand face to face with intent to steal from you
There's more than what you want to know but that's the truth
And they would kill, so foolish but they do
Don't test the limits, no time to lose
No hesitation, life could be gone in a second
The moment you wanted to move you feel in your gut, in the tension, a
gression
But people don't think about that
I know so sad the reality checks in
Just look around, we live in world of malice living a lesson

This is eternal war
In a world of malice
This is eternal war
In a world of malice

Eternal war, this grief is part of me
It never ends, severe reality
If we could change, what would come of things?
If all we know is guilt, murder, malice, greed
With my own eyes I witnessed losing peace
Is it the trauma or hell surrounding me?
Can't trust a soul, it's always lie or cheat
Twisting the dagger then watch me bleed

Eternal war, this grief is part of me
It never ends, severe reality
If we could change, what would come of things?
In a world of malice
