

## Against the Grain

UNKLE

Cover the rest, don't leave me straight  
There's an arrow only I can take  
Cover the marks, don't leave me straight  
Hold me while I lose my grip

Don't look up, you can save yourself  
Don't look round, there ain't anybody else  
Don't cry out, don't expose your name  
You've got to kick, against the grain

Don't look up, you can save yourself  
Don't look round, there ain't anybody else  
Don't look up, you can mark your name  
Don't look down, your against the grain.

Your losing yourself  
Behind the face that you created  
Your losing your head  
Inside a form that you created  
Your losing your feet  
Above a world that you created.  
...that you created  
...that you created

Don't look up, you can save yourself  
Don't look round, there ain't anybody else  
Don't cry out, don't expose your name  
You've got to kick, against the grain

Don't look up, you can save yourself  
Don't look round, there ain't anybody else  
Don't look up, you can mark your name  
Don't look down, your against the grain.

Hold me when I lose my grip  
I really need you  
Hold me when I lose my grip  
I know I need you.  
You know I need you  
You know I need you
