

Can't Stop

UNKLE

Give me space, and rigged my flash
The breaks have failed and comes in a crash
Now I can't find no way to hide

Keep the calm, so up tide
I wanna take it out tonight
For century to where I fly

You won't
You won't

Keep your head it's gonna blood
And lights are all for all one son
And I can't keep myself in nine

Lightin' up, per so I raid
Resistance says that few some stayed
The clock is ticking all the time

You won't
You won't

I can't stop living my head
Can't stop living in my head
No, I can't stop living in my head
Can't stop living
Stop living
Stop living
Can't stop living

Went around we go again
I thought we're lost, we mean the end
The clock is ticking all the time
Don't enfight but you can't find

I can't stop living my head
Can't stop living in my head
No, I can't stop living in my head
Can't stop living
Stop living
Stop living
Can't stop living

You won't
You won't

I can't stop living in my head
Can't stop living in my head
No, I can't stop living in my head
I can't stop living my head
No, I can't stop living in my head
Can't stop living in my head
No, I can't stop living in my head
Can't stop living
Stop living
Stop living
Can't stop living
