

Feel More / With Less

UNKLE

How do you know
This feeling when I'm awake
How do you know that
Yeah how do you know
Confidence on the floor
How do you know that

I feel more with less
I feel more with less

Show me how you wanna live
Show how you pain relieve
How deep you sleep
Show me how you hide yourself
Show me. Stand up for me
Stand up for me

I feel more with less
I feel more with less

I feel more with less
I feel more with less

How do I know
The way I'm gonna go
Well, I follow the lights
In front of your eyes
Innocence and lies
How is it so

Yeah how do I know
The way I'm gonna go
I follow the lights
In front of your eyes
Innocence and lies
How is it so

I feel more with less
I feel more with less
I feel more with less
