

## Nursery Rhyme / Breather

UNKLE

Does it mean I never let you know  
Each time I turn inside  
When I fully grow I'll outsize you  
But I won't let you fall in love  
You know it flows over me  
And you won't let me drown inside

Sing a nursery rhyme to keep me quiet  
Sing a nursery rhyme to keep me quiet  
Woman please stay close to me, close to me  
Carried through your ecstasy

You can't stop me breathing  
Even when you're on fire  
Know that you're weaving  
With my emotional wires  
Flows through me  
In through me  
Out through me  
Over me  
Feeling me  
Feeding me  
Electrically

It's electric ballroom love

I have to breathe the air you breathe  
I'm inside you  
In a room inside a room  
I'm inside you  
The colour changes  
Follow your emotion  
I can see when you're feeling desire  
I feel him close to you  
While I just walk around inside you  
Don't let him close to me  
Not when you know it's not the one  
The one  
You love

It's electric ballroom love  
Keep me quiet

Won't you sing me a nursery rhyme  
To keep me quiet while you're on fire

Please just sing me a nursery rhyme  
To keep me quiet while I'm inside

I won't let you fall in love  
You know inside the baby knows

Your baby knows

You're on fire

Keep me quiet

Breathe the air you breathe
