

Set No Sun

UNKLE

I'm not wasting my power of speech
I'm not letting you down
I'm not waiting for someone to stand
See it atleast in your frown

But your tears aren't all justified
I will block the stampede
You and me, we have time on our side
Reason to believe

David died over me
Silenced with no repeat
Died over me
Who did I use to be
David died in me

Come climb this ledge and see what I mean
Cast your eyes over miles
You're no first and you won't be the last
Just enjoy the ride
These cycles, they cannot disturb
Setting tempo in time
Join our force and balance our minds
We have you, we'll be fine

David died over me
Silenced with no repeat
Died over me
Who did I use to be
David died in me

Left for dead
Glad, we made it
Set no sun
Rely, on what we're left
For dead
Glad, we made it
Set no sun
Rely, on what we're left
For dead
Glad, we made it
Set no sun
Rely on what [we're]

David died over me
David died on repeat
