

The Road

UNKLE

Take the road you know, the road that leads to everywhere
Spend the time where everyone and anyone is there
Something new's already old, we've heard it all before

In, out, in and out
Here by word of mouth
It's right here right now
Feel dead or alive

We'll be gone in a while
In the blinking of an eye
So give me quality time, baby
Quality time

Spending time with everyone and anyone is there
Something new's already old, we've heard it all before

In, out, in and out
Here by word of mouth
It's right here right now
Feel dead or alive

We'll be gone in a while
In the blinking of an eye
It's right here right now
Feel dead or alive

So give me quality time, baby
Quality time
It's right here right now
Feel dead or alive

Is it real
Is it real
What I'm feeling
Is it real
I believe it when I feel
I believe it, it's real
Is it real
Is it real
What I'm feeling
Is it real
I believe it when I feel
I believe it, it's real
It's real

Spending time
With anyone, everything
Something new's already old
In and out, and out the old
Something new's already old
Is it real what I'm feeling
What I'm feeling
Easy
Yeah, what I'm feeling
I believe it
In and out, and I'll be gone

Here by word of mouth
It's right here right now
Feel dead or alive

We'll be gone in a while
In the blinking of an eye
In, out, in and out
Here by word of mouth

There'll be quality time, baby
Give me, give me
Give me, give me, give me quality time (It's right here right now)
Give me, give me, give me quality time (Here by word of mouth)

Is it real
Is it real
What I'm feeling
Is it real
I believe it when I feel
I believe it, it's real
Is it real
Is it real
What I'm feeling
Is it real
I believe it when I feel
I believe it, it's real
It's real
