

Forget about it
Ever get outta here I doubt it
Maybe try again
You're bound to have better luck
Paranoia
Maybe it's just the powder up your nose
Given' up
It's just a door that's never shut
Crackin' up
I guess you're not that type o' nut
Hang around a while
You're bound to forget your promise

Nadja darlin'
Tell me all about the other girl inside your bed
My love
Darlin' I'm
On this lonely road so long I don't know livin' from the dead
Thought that I might get a little head
La la la

Nadja baby
Found a strand of your hair and ate it
Couldn't throw away this thing you left behind
Love's half-life
Evaporates like water in the blood
You're feelin' homesick I just stepped out of the room
Crackin' up about this lonely afternoon
Hang around a while
You're bound to forget your promise

Nadja darlin'
Tell me all about the other girl inside your bed
My love
Darlin' I'm
On this lonely road so long I don't know livin' from the dead
Thought that I might get a little head
La la la

Nadja darlin'
Tell me all about the other girl inside your bed
My love
Darlin' I'm
On this lonely road so long I don't know livin' from the dead
Thought that I might get a little head
