

# Hocus Pocus

Unknown T

Listen

Hocus pocus, I was broke and had to focus on my own shit  
The burden tried to pit me as a culprit  
Got a lot of pasta on my shoulders  
Heavy karma and I know this  
'Cah truce said we slapped up the olders  
We was money hungry, now it's dirty money to my chaffeur  
I see the nigga scream out, ain't for settle, he's a joker  
I'm a rebel she don't know 'cah the gun bless her  
I can't tell her that I drip, it give her blood pressure  
Cock back and undress her  
Fiddle with my finger, I'm a gun presser  
She loves to argue and she loves to lecture  
Back and forth and now she talkin' 'bout I don't impress her  
On my neck, she only askin' did I fuck Vanessa  
These goodies want my cheddar, can't trip me 'cause I'm clever  
My old ting just on top and I call her beretta  
My new ting got mistreated so I had to take her  
I told my young bucks to gwuan check her

(Look)

Hocus pocus, I was broke and had to focus (Look)  
Time to up' the 'Gram, we don't need associates (Look)  
Hocus pocus, I ain't feedin' no more vultures  
We're soldiers (We're soldiers, we're soldiers, we're soldiers)

Check

You're hocus pocus, I ain't dipping in no focus  
At twenty-five, I can't rely on any olders  
Yo, I'm back still  
Bench a little weight up off my shoulders  
It didn't take me long to know that I'm the coldest  
Now I burn like the fucking sun  
On any track I'm on, sweet like a Capri Sun  
These niggas acting dumb, for real  
I told T, that any pass is long  
He jokes, said he got more smoke than in your daddy's lungs  
You're young, I can't expect you to understand  
Yo, what it's like to touch that stage, catch a hundred grand  
Dumb money that you can't wrap in any rubber bands  
Make that same shit next week, that's in my mother's hand  
I tested a lot of rappers with this shit that I been blessed with  
Made a little something, so we have to get invested  
I don't want no trouble with them bruddas that you mess with  
But if you touch my son then your bruddas are getting ended  
I'm back with it, I kick a lyric  
Feel my black spirit rising through the city  
We don't act timid, we move  
A couple people said I act different  
I guess they never really knew me for this tax, innit  
Yeah, so what you wanna know about this?  
My name so real, them other rappers walk around it  
They don't speak it  
'Cause what I've got, they don't teach it  
I earned this, never learnt this  
And that's the secret, yeah

I've got enemies, a lot of enemies  
Shook a lot of hands to be the man that they pretend to be  
So what you telling me?  
Them other fellas on them felonies while we was busy selling out them Wembleys and Hammersmith apollos  
Yo, when I lead, niggas follow  
Other cats beg, steal and borrow  
I'm doing it tonight, guys are doing it tomorrow  
It's not surprising why it's filling me with sorrow  
But I can not quit, that's a misuse of my power  
Goin' on savage like I'm Alicent Hightower  
Gently, but foundation ain't no fenty  
Money on the table, but the bosses couldn't temp me  
Yeah, I'm shining and they ain't busting any diamonds  
Always been the best, but getting better with the timing  
Expert rhyming, ten years deep and ain't hit my prime in  
I guess I found a silver lining  
I'm back
