My shawty beg me to leave dat trap, she don't like it when I fling them packs
But I'm stuck in the dirt with white tryna feed them cats
More time, I get all my quid in cash
And I'm really tryna hit the blam, who? What? Where? I'm a fearless man
But this stain goes wrong then we're all going straight to the can
My baby girl told me I'm knees deep in, hoping the pigs don't skrrt in the dining
Lord forgive me in this life of sin, I'mma take that L to the chin
More time the undies search like bing, so I gotta wrap these wraps of cling
I'm two steps ahead of the law, I'm a young black king
Now, rise up my young black kings
We all been a young nigga making cash but tell me, how come the cops took Rash?
And the officer didn't get bagged, it's fucked up, need justice for that
Rest up bros, I miss them too, the streets been peak, lost half of my crew
My babe goes nuts when I hustle the food, baby, I gotta do what I do
But the cops tried to nick me today, fuck, I should've just listened to bae
Hate when the cops try to confiscate cake but I go make it back, no delay
I go make it back on the lay, I jugg in the day and duck from the jakes
I'm flippin' this cake while rocking in Bape, my babe, my babe said it's time to break
