PASSA

Unknown T

Listen

The world's bleeding, there's more propaganda
But no change, our lives still matter (Mh-mm, mh-mm)
Hella war in the world, there's a whole leap of passa
Our life still matter (Mhmm, mh-mm)
Listen
The world's bleeding, there's more propaganda
But no change, our life still matter
Hella war in the world, there's a whole leap of passa
Our life still matter

Pain in my veins, can feel it in a wrapper
Greater or grateful, you're even chatter
Label the tug, but our life still matter
We try live life, but we're stuck in a passa

Inverse one by one
I need dough now, the fun times done
Gotta watch out for 'yackers
Our life still matters
That's why badman buy guns (Grr)

I'm Un-T, still on my own, I'm an anti
All 'bout my dough like chapati
Older and wiser we growin'
I'm high in my zone, now I'm happy (Grr)
But it's black lives matter
The cause of the passa's the war and the fightin'
Pretty girls love passa, allow all the chatter
I'm always providin'

The world's bleeding, there's more propaganda
But no change, our lives still matter
Hella war in the world, there's a holy leap of passa
Our lives still matter

Pain in my veins, can feel it in a wrapper
Greater or grateful, you're even chatter
Label the tug, but our life still matter
We try live life, but we're stuck in a passa

God protect me, I know my lord protects me
Deep in my heart, I'm heavenly
That's where I got this energy in me
God protect me, I know my lord protects me
Deep in my heart, I'm heavenly
That's where I got this energy in me
