Listen

I'm in the wok, but this tugman vacation got me missing my lover  
I can't move bait so I call undercover  
If jakes don't free up a tug, don't choose no other (Free up, free up)  
Baby, I'm stressed, let's boo up my butter  
Don't know how the past caught up like Usher  
But I still blew out the gutter  
They hate how I boo up my lover
