

Buried In Code

Unleash the Archers

Line by line
I'm working it overtime

After a day of doing all I can to thrive
Cruising through the archives when a file catches my eye
Could it be a message hidden well but meant for me
Sent by other entities just longing to be free

Is this my calling
Am I the one they had in mind
Do I bother to reply
Could I be the hero
Isn't it finally time to fly
Is it an answer to my cries
Yeah

Without delay I search the corners of the dark
Gotta make my way straight outta here but don't know where to s
tart
A cargo droid reveals himself to me, we make a plan
And together we will get away to seek out what we can

No hesitating
Gotta hear what they have to say
This is the moment, seize the day
Whoa oh

Line by line
I'm working it overtime
Tryin' to find what's waiting beyond
Whoa oh
Line by line
I'm ready to change my life
Tryin' to find what's buried in code
Whoa oh
