

Going Down Fighting

Unleash the Archers

Come on
You're the one that brought us here
I can't believe what you say
Tell me you're kidding
Hell no, you're not gonna leave us stranded here
No way, you've ruined everything
Can't you see we're lost without you
Though we hate to say
There's so much at cost
You know it's true
And you can only take

Oh, we've heard it all before
And now we'll hear it once again

Take your cut and go
Leave us out in the cold
You can never get away
Not this time

Going down fighting [4x]

If you never want us to return again
That's fine with me
Not gonna stand for thievery
I know, you probably think that
You're gonna get away with your little game
But rules are made for breaking
Can't you see we're lost
There's so much at cost

Oh we've heard it all before
And now we'll hear it once again
Stop this lying to yourself
You're crying to an empty floor
And we are not to blame
Stop denying

Going down fighting [4x]
