

Return To Me

Unleash the Archers

Return what you have taken from me
Rightfully mine, I will not allow this, thief
Think you know this weapon in your hands?
You are a fool, I am his only command
Attack! My boys are coming for you
Try as you might, you can't escape your doom
I am alpha, rule absolute
Think you can win? I know you only can lose

Now behold my finest hour, ultimate power
All the universe is mine, wind and water, earth and fire

And so, you see how futile the fight
This is the end, why do you even try?
Kneel before me, swear to obey
And I'll let you live, serve for eternity

Now behold my finest hour, assured victory, ultimate power
All the universe is mine, to control, to define

No son, you can not run, I'll find you
No matter how far you fly
Hear me, fear me!
I'll follow you for all of time

Now behold my finest hour, ultimate power
Now behold my finest hour, ultimate power
All the universe is mine, wind and water, earth and fire
