

Hold Your Hammers High!

Unleashed

Warriors of Midgard
Are you still with me?
Our journey continues
Out on the open sea
Open sea

"Like our fathers
In the past"
Into the endless night
Still far from home
So, hold your Hammers high!

Hammers high!
Hammers high!

We are not the same
War changed us all
And just like the Aesir
One day, we too must fall
Must fall

"Like our fathers
In the past"
Into the endless night
Still far from home
So, hold your Hammers high!

Hammers high!
Hammers high!

Away from mayhem and death
Home to Birka shores
Odin guide us
To Svithiod once more
Once more

Like our fathers in the past
Into the endless night
Still far from home
So, hold your Hammers high!

Into the endless night
Still far from home
So, hold your Hammers high!

Hammers high!
Hammers high!
