

Midgard Warriors for Life

Unleashed

How far we've travelled now
No one can tell
Through countless days and nights
And when the darkness falls
It is time to rest
And to reflect on life

It festers in your mind
Both fear and hate
That you'll bear with you until you die
But don't be discouraged now
And don't give in
You are Midgard Warriors for life

We are Midgard Warriors for life
We are Midgard Warriors for life

Remember what you have
And who you are
For Midgard we gladly bleed
No matter what comes out
Of the abyss
It must be defeated and we'll be free

It festers in your mind
Both fear and hate
That you'll bear with you until you die
But don't be discouraged now
And don't give in
You are Midgard Warriors for life

We are Midgard Warriors for life
We are Midgard Warriors for life

It festers in your mind
Both fear and hate
That you'll bear with you until you die
But don't be discouraged now
And don't give in
You are Midgard Warriors for life

We are Midgard Warriors for life
We stand proud in the frontline, that's how it is
We are Midgard Warriors for life

We are Midgard Warriors for life
Fighting for the oppressed, that's who we are
We are Midgard Warriors for life
