

Only The Dead

Unleashed

You open wide and prepare to receive
A hunger for sex unseen
You crave hard penetration
And order me to come deep
You'd be all right just to suck me dry
But you can beg and plead...

I only fuck the dead
I only fuck the dead
Only the dead

This ain't no game, it's about life & dead
To satisfy your needs
You demand a sensation
And crave my anal feed
You'd be all right with just a "golden rain"
But you can beg and plead...

I only fuck the dead
I only fuck the dead
Only the dead
