

War Comes Again

Unleashed

All you took from me was life
Maybe the end is drawing near
I haven't lost the will to live
But I have nothing more to fear

As war comes again
I dream of your death
War comes again
War comes again

So, you want to bring me pain
You sons of the white light
Come well prepared to the battle!
Oh, how I long for the fight

As war comes again
I dream of your death
War comes again
War comes again

Thor give me the strength I need
Death will come eventually

I am ready
Like Vaftrudner in the tales
I do not fear the end
Odin take me if you need
I will know when the Valkyries ascend

The halls of Valhalla await
If this is my fate

As war comes again
I dream of your death
War comes again
War comes again

I don't fear the end
War comes again
