

## 50 50

Unlike Pluto

I wanted a love with the 50/50 splits  
Wanted a love that never quits  
Like a switchblade serenade  
Velvet sheets on top of blades

Nothings even so I try try try  
Nothings even so I wonder why

Where were you when I wanted you  
It's never equal with me and you  
With me and you  
With you  
It's never equal with me and you  
With me and you

Sharp  
Sharp tongue and you got wit that comes with it  
Middle finger of the night it  
It's candle lit

Tug my heart until you find a war  
The one you were looking for

Nothings even so I try try try  
Nothings even so I wonder why

Where were you when I wanted you  
It's never equal with me and you  
With me and you  
With you  
It's never equal with me and you  
With me and you

Where were you when I wanted you  
You  
Where were you when I wanted you  
You  
Where were you when I wanted you  
You  
Where were you when I wanted you
