

Clouded

Unlike Pluto

I'm clouded around you
I'm clouded around you
Sunny with a chance of pain
Sunny with a chance of pain
Sunny with a chance of
Why do I, why do I
Act this way around you, you, you
I'm clouded around you

I'm clouded around you

How can you say I'm lost
When you haven't made up your mind
You can change everything around you
But peace it starts from inside
Let it all die, let it all die
Chaos will fly, chaos will fly

I'm clouded around you
I'm clouded around you
Sunny with a chance of pain
Sunny with a chance of pain
Sunny with a chance of
Why do I, why do I
Act this way around you, you, you
I'm clouded around you

I'm clouded around you

When you haven't changed your mind
You don't see how I hide
When you haven't changed your mind
You don't see how I hide

I'm clouded around you
I'm clouded around you
