

Conspiracy

Unlike Pluto

All-seeing eye overhead, but I'm blind
Maybe it's all in your head, in your mind
Is thirty-five really dead or alive?
I will believe anyway, I don't mind

Gimme, gimme fantasy, ooh, give me more of it
And gimme, gimme lucid dreams, or I'll get

Carried a-, carried a-, carried away
Believing every single word you say
I'm going in-, going in-, going insane
I can't even really trust my brain

Don't know, don't know, is it just a
Theory? Don't know, conspiracy

Flat earth, UFOs Bigfoot, no one knows
White lies spreading out, catching fire, spreading doubt
I hope you don't mind if I say, I'm lost in your reality
Lies dipped in gasoline, catching fire, spreading doubt

Gimme, gimme fantasy, ooh, give me more of it
Gimme, gimme lucid dreams, or I'll get

Carried a-, carried a-, carried away
Believing every single word you say
I'm going in-, going in-, going insane
I can't even really trust my brain

Don't know, don't know, is it just a
Theory? Don't know, conspiracy

All of these conspiracies (lies, all lies)
Hold my beer and tell me my life is a lie
My brain needs conspiracies, oh-oooh
Intoxicate me out of my reality

Carried a-, carried a-, carried away
Believing every single word you say
I'm going in-, going in-, going insane
I can't even really trust my brain

Carried a-, carried a-, carried away
Believing every single word you say
I'm going in-, going in-, going insane
I can't even really trust my brain

Don't know, don't know, is it just a
Theory? Don't know, conspiracy
