

Cosmo's Interlude

Unlike Pluto

Hey, I wanna go now

(Mm)

Hey, cover a song now

(Mm)

And I wanna go, and I wanna go and take what I own, shoulda done it long ago

Hey, future's calling me up now

(Mm)

Flying up so sky high

Maybe gravity is my guide

And I don't care where I fall

I'll be better off, better off, better off

I just needa spread my roots, eh

Find a place I can grow

And I, I, I

And I am quickly runnin' out of time

Nobody knows how many minutes left, minutes left

Everyone knows I'm wasting my time

Hey, I wanna go now

(Mm)

Hey, cover a song now

(Mm)

And I wanna go, and I wanna go and take what I own, shoulda tried it long ago

Hey, future's calling me up now
