

# Crash And Burn

Unlike Pluto

I'll crash and burn  
I'll crash and burn

You left me to burn  
The ashes fall like the rain that comes down  
Lesson learned  
When I fall I fall so hard till I'm laid out  
Looking around  
You gotta a smile just like a pyromaniac  
What I've learned  
Sometimes you gotta let it all play out

Let it all play out  
Let it, let it, let it, oh  
Let it all play out  
Let it, let it or I'll

I'll crash and burn  
I'll crash and burn  
Crash and burn, don't expect a phoenix to return  
I'll crash and burn

We had a good start  
It didn't take long for life to get crisscrossed  
One bad thought  
It circles like a tornado that blew off  
Left you distraught  
A memory that you can't really shake off  
You never forgot  
So you retaliate and never let it play out

Never let it play out  
Let it, let it, let it, oh  
Never let it play out  
Let it, let it or I'll

I'll crash and burn  
I'll crash and burn  
Crash and burn, don't expect a phoenix to return  
I'll crash and burn

Long crash  
Short burn  
Some things just can't return  
Hard pass  
No return  
I think I'll never learn

Let it all play out  
Let it all play out

I'll crash and burn  
I'll crash and burn  
Crash and burn, don't expect a phoenix to return  
I'll crash and burn
