

# Crawling

Unlike Pluto

There's no medicine  
For what you put in  
And I don't know  
And I don't know, oh  
But I let it in  
For that, I repent  
And I don't know  
And I don't know, oh-oh, yeah

Like I was safe from the shit that you said (wish I, wish I)  
Wish I could change the words that you said (wish I, wish I)  
And there's no medicine, there's no medicine

Your words crawl into my ears tonight  
(I'm crawlin' in, crawlin' inside)  
Hypnotized by parasitic lies  
(I'm crawlin' in, crawlin' inside  
I'm crawlin' in, crawlin' inside  
I'm crawlin' in, crawlin' inside)

No, here we go  
Yeah, I'm dedicated  
And we celebrate it  
When you break me, when you break me right down  
And you're killing me  
Pre-meditated  
Ooh, I'm devastated  
And you leave me, leave it on the ground

Like I was safe from the shit that you said (wish I, wish I)  
Wish I could change the words that you said (wish I, wish I)  
And there's no medicine, there's no medicine

Your words crawl into my ears tonight  
(I'm crawlin' in, crawlin' inside)  
Hypnotized by parasitic lies  
(I'm crawlin' in, crawlin' inside  
I'm crawlin' in, crawlin' inside  
I'm crawlin' in, crawlin' inside)

I'm playin' mind games, manipulate me  
Operate me, surgical lies  
You sedate me, drunk on a memory  
Then it all fades, and I realize  
You run away for a while (I don't know why)  
Why'd you whisper nothin',  
When you knew somethin'?  
Don't you wanna stay for a while? (I don't know why)  
Bye then

Your words crawl into my ears tonight  
(I'm crawlin' in, crawlin' inside)  
Hypnotized by parasitic lies  
(I'm crawlin' in, crawlin' inside  
I'm crawlin' in, crawlin' inside  
I'm crawlin' in, crawlin' inside)
