

## Curse

Unlike Pluto

Curse, curse, curse  
If fate don't, got me  
Then I'll be, a curse  
If fate don't, got me  
Then I'll be, a curse

I've been, I've been, in worse  
This situation hurts  
I've seen, I've seen, the worst

Giving me the choice of fate any day  
Curses go away  
Give me the choice of life or darkness  
One of these has to work

Curse, curse, curse  
If fate don't, got me  
Then I'll be, a curse  
If fate don't, got me  
Then I'll be, a curse

Tongue-tied with a bright sky  
I got doubt creepin' inside  
What did I do, what did I see?  
The road changed under me

Giving me the choice of fate any day  
Curses go away  
Give me the choice of life or darkness  
One of these has to work

Curse, curse, curse  
If fate don't, got me  
Then I'll be, a curse  
If fate don't, got me  
Then I'll be, a curse
