

Damage Control

Unlike Pluto

I'm on my way
Feel like a king
Then my cell rings
Ruins everything
The mayhem spreads
Progress is dead
Shoes filled with lead
Goin out of my head

It takes a toll, toll
It takes a toll, toll

Tired of being on damage damage damage damage control
Just trying to manage manage manage all my problems, let it go

Should of been easy
But you failed completely
You're just so needy
It's leaving me dizzy
Chaotic life
The sun is burning bright
Cut out the bad
Got the mayhem in hand

It takes a toll, toll
It takes a toll, toll

Tired of being on damage damage damage damage control
Just trying to manage manage manage all my problems, let it go

It's only natural
And time will only tell
Gotta ride the ups and downs
Steady as it goes
There ain't a manual
Gotta look beyond the crowd

Tired of being on damage damage damage damage control
Just trying to manage manage manage all my problems, let it go
