

Dig

Unlike Pluto

You're lost on my surface
I can see it in your eyes
Peel back the layers
I'm hiding
In a forest built around my heart

Come and find me
Never, never stop
Never, never stop
Come and find me

I wish you could try to dig
Dig a little deeper
Dig a little deeper
To see, see, see
Every single layer
Hidden from the reaper
Oh, oh

Red eyes
With warning signs
I can show more than I can tell
It takes time for you to understand
Misunderstood
Feels like no one's gonna ever know me

Come and find me
Never, never stop
Never, never stop
Come and find me

I wish you could try to dig
Dig a little deeper
Dig a little deeper
To see, see, see
Every single layer
Hidden from the reaper

Layer by layer
The deeper we go
You don't care about me at all
Oh, oh, oh

I wish you could try
To dig
Dig a little deeper
Oh, oh, oh
Oh, oh
