

Dosage

Unlike Pluto

Whatchu really think of me
Did you think I wouldn't see
How you never wait for me
So Imma keep you at arms length
I coulda let a little thing (really) get to me
But it isn't worth it honestly
I don't wanna go and throw it all away
But we need to attenuate

We just need to pull back our dosage
We just need to lower the voltage
I just need a little room

Insanity, you're driving me, up every wall
Degrading me, you're putting me off
After back to back weekends you're blowing up
And you act like none of it is your fault
If we're gonna stay on the up and up
You have gotta lower your dose

We just need to pull back our dosage
We just need to lower the voltage
I just need a little room

I don't wanna fake like everything's fine
I don't wanna wait to the boiling point
Wanna break the tension
It's an intervention
Drawing the line
Cause you pushed me out
You watched me fall
I'm bleeding out
But when it all comes down
I know, I'll just forgive it all

We just need to pull back our dosage
(We just need to lower the voltage)
I just need a little room
