

Everybody Is Interesting

Unlike Pluto

Everybody wants to be interesting
Oversaturated pixels in the noise
Maybe no ones really interesting
Tell me what makes you different

I say let the world go to hell
Follow the leader till the leader fell
I say let the world go to hell
Can't keep riding on this carousel

Everybody wants to be interesting
Oversaturated pixels in the noise
Maybe no ones really interesting
Tell me what makes you different

Your recycled thoughts with nothing in the frame, frame
You lose yourself down roads you didn't claim, claim
Say what you don't wanna say
Think thoughts that you never made
I can see right through your disguise
So fake, so fake, oh...

Everybody wants to be interesting
Oversaturated pixels in the noise
Maybe no ones really interesting
Tell me what makes you different
