

# Everything About Nothing

Unlike Pluto

Live it up, live it up, when it's me and you, when it's me and you  
Let it take, let it take, take ahold of you, take ahold of you  
They will talk their shit and you know they'll keep on going  
Give it up, give it up, cuz they don't get me, and they don't get you

Talkin talkin  
About a whole lot of nothing  
A whole lot of nothing  
You  
Talkin talkin  
About a whole lot of nothing  
A whole lot of nothing  
You

An inside jokes, no one knowing  
What we know, we'll never tell a soul  
Maybe we don't care if they judge, a thing  
They wouldn't understand it anyways  
Laughing about nothing  
Just doing our own thing  
Just trying to be free  
You can bet that we'll be

Talkin talkin  
About a whole lot of nothing  
A whole lot of nothing  
You  
Talkin talkin  
About a whole lot of nothing  
A whole lot of nothing  
You

A whole lot of nothing  
You

Took time to forge all these bonds  
Never woulda gotten too far  
Never woulda gotten too far  
Without the friends like family  
I woulda lost my sanity  
I woulda lost my sanity

Talkin talkin  
About a whole lot of nothing  
A whole lot of nothing  
You  
Talkin talkin  
About a whole lot of nothing  
A whole lot of nothing  
You

A whole lot of nothing  
You
