

## First Generation

Unlike Pluto

You had to run away, run for your lives  
You never had a say, fought for your lives  
A nurse and an engineer  
Made a new life, despite all the fear  
Traveled cross a couple oceans here  
Made a new life, despite all the tears

I feel the pressure of your life  
I don't wanna let you down  
But I'm not sure how  
I promise I'll try  
Promise I'll fly  
Promise I'll make you proud

You met in Paris  
It was snowing, and glowing  
Just one year later  
You were married, you carried all the weight  
You made a way to get us here  
Guided by hope, fleeing from fear  
I never knew a thing bout fear  
Because what you did, to get us all here

I feel the pressure of your life  
I don't wanna let you down  
But I'm not sure how  
I promise I'll try  
Promise I'll fly  
Promise I'll make you proud

I know that you'll never say  
Just how proud you are of me  
Even though it's not the way you planned  
I know you want the best for me  
I get why it's hard to see  
This is who I want to be

I promise I'll try  
Promise I'll fly  
Promise I'll make you proud
