## Unlike Pluto

Oh fuck me over (Over and over)  
Oh fuck me over (Over and over)  
All this for what I said  
Didn't mean to make you fuck me over  
Until it's over (Over, over, over, over)

Thinking of the things I said  
Didn't know that it would start a fight (Over, over)  
Why would you respond like this?  
Knew it would get back to me in time (Oohhh-I)  
Tell tale heart run over  
Poetic only when you're sober  
It would be a lie to say I didn't see it coming

Counting all the days like  
I knew that you would (5, 4, 3, 2, 1)

Oh fuck me over (Over and over)  
Oh fuck me over (Over and over)  
All this for what I said  
Didn't mean to make you fuck me over  
Until it's over (Over, over, over, over)

When you try to make it right  
It's a snake bite  
With venom inside  
You stabbed me in the back with both edges of the knife  
No one's gonna hear you when you cry  
Wish I could look the other way  
Wish that I had a half a brain  
Wish I was numb to all this pain

Counting all the days like  
I knew that you would (5, 4, 3, 2, 1)

Oh fuck me over (Over and over)  
Oh fuck me over (Over and over)  
All this for what I said  
Didn't mean to make you fuck me over  
Until it's over (Over, over, over, over)

I thought that space might do some good  
(Never thought the worst of it)  
Never thought you'd cheat, you would  
(I know that you tried to hide it)  
You've spent years just riding a fence  
(You had the best of both worlds)  
Pick a side, get on with it  
(Oh, my love is well spent)  
Oh my love is well spent  
(Oh my love is well spent)

Counting all the days like  
I knew that you would (5, 4, 3, 2, 1)

Oh fuck me over (Over and over)  
Oh fuck me over (Over and over)

All this for what I said  
Didn't mean to make you fuck me over  
Until it's over (Over, over, over, over)
