

Fool's Paradise

Unlike Pluto

In a fool's paradise
I've been waiting so long
In a fool's paradise
Till the end of time

Neverland in my feet
The tide is up overflow
Is it pixelated, create a world I moderated
Ooh that's out of control
Please take it away
Take it away
Oh oh oh
Palms face up to acid rain
Reality drains
Oh oh oh

In a fool's paradise
I've been waiting so long
In a fool's paradise
Till the end of time
Dissolve from the sun oh
What have I done?
In a fool's paradise
I'm afraid to wake up

All the days begin to collide
Frozen frames I'm stuck in time
Coping mechanism, make a split into the schism

Palms face up to acid rain
So sad to watch it drain down
Palms face up I feel the rain
Reality came, oh oh oh

In a fool's paradise
I've been waiting so long
In a fool's paradise
Till the end of time
Dissolve from the sun oh
What have I done?
In a fool's paradise
I'm afraid to wake up

Too good to stay
What's real won't fade away
Time to grow and time change

Palms face up to acid rain
So sad to watch it drain down
Palms face up I feel the rain
Reality came oh oh oh

In a fool's paradise
I've been waiting, I've been waiting
I've been waiting for so long
In a fool's paradise
Till the end of time

Dissolve from the sun oh
What have I done?
In a fool's paradise
I'm afraid to wake up
