

## Gaze

## Unlike Pluto

Gaze into each other's minds  
The haze has made its plan  
We'll hide it from the outside

Gaze into each other's minds  
Our past would leave behind  
Our lies would try to hide

I don't wanna stay to long in this undertone  
I tremble at the thought of letting go-oh  
Holding on too tight  
Scared of losing my mind  
Medicate so I'll survive it

And it's more than I asked  
I'm avoiding the past  
I'm a knot in the pain  
Been trying to change  
Glad that I am phased  
Just trying to

Gaze into each other's minds  
The haze has made its plan  
We'll hide it from the outside

Gaze into each other's minds  
Our past would leave behind  
Our lies would try to hide

I can't break free from this cage as you hold on me  
Deception of the minds takin' over me  
Take it as it comes  
Feelin' kinda numb  
Medicate so I'll survive it

When I look in your eyes  
It was clear as the sky  
Oh bringing me back, back to life  
Like a prism holding light  
Just trying to

Gaze into each other's minds  
The haze has made its plan  
We'll hide it from the outside

Gaze into each other's minds  
Our past would leave behind  
Our lies would try to hide

Would you lurk in nausea if you saw the same face?  
Do you realize that we both have the same fate?  
(Oooh-ohoooh)  
(Oooh-ohoooh)  
(Oooh-ohoooh)  
(Oooh-ohoooh)  
Gazing into each others mind (mind, mind, mind, mind)

Gaze into each other's minds  
The haze has made its plan  
We'll hide it from the outside

Gaze into each other's minds  
Our past would leave behind  
Our lives would try to hide

Gaze into each other's minds  
The haze has made its plan  
We'll hide it from the outside

Gaze into each other's minds  
Our past would leave behind  
Our lives would try to hide
