Headless

Unlike Pluto

I'm headless, headless
Baby don't you cry oh
Baby don't you know
I'm headless, headless
Baby don't you cry oh
Baby don't you go away

I can be a little dead inside but mostly alive, mostly alive
I swear you see the world with tears that you cry, that you cry
I like that about you so I never say a thing
If I'm the nighttime then you're my dream

I'm headless, headless
Baby don't you cry oh
Baby don't you know
I'm headless, headless
Baby don't you cry oh
Baby don't you go away

Headless
Feelings burn my skin
I don't really feel anything
You knew this about me
Remember how you found me
Shine a spotlight
This time I can't hide
Remember my heart doesn't beat

You like that about me so you never say a thing
If I'm the nighttime then you're my dream

I'm headless, headless
Baby don't you cry oh
Baby don't you know
I'm headless, headless
Baby don't you cry oh
Baby don't you go away
