

All of my
All of my problems
Oh they can go to infinity
Oh they can go to infinity
It feels like infinity
It feels like infinity

Look around
Everything can weigh you down
Catch-22
Like it's always next to you
The more problems I fix
The more I feel like they multiply
Catch-22
Like it's always next to you

All of my
All of my problems
They feel like Infinity
They feel like Infinity
All of my
All of my problems
Oh they can go to infinity
Oh they can go to infinity
It feels like infinity
Oh it feels like infinity

Drag it out
Build me up
Just to tear myself down
Catch 22
Like it's always next to you
The more problems I fix
The more I feel like they multiply
Catch-22
Like it's always next to you

All of my
All of my problems
They feel like Infinity
They feel like Infinity
All of my
All of my problems
Oh they can go to infinity
Oh they can go to infinity
It feels like infinity
Oh it feels like infinity

I have a habit of building up problems
To the sky, they rain down
They rain down down down
I have a habit of building up problems
They rain down
They rain down
