

On a poster in the bar room  
Looking older, see my own tomb  
Antisocial like a statue  
Going postal and I want to

Ooh, I wanna feel there's something better  
But you, you throw me off just like a sweater

Sometimes I feel alone  
Lada-dadida  
Sometimes I feel alone  
Lada-dadida

Try to pivot to a new life  
Try to limit who I invite  
Am I crazy, am I dead wrong  
Maybe lately I'm just headstrong

I give it away Like Anthony Kiedis on his darkest day  
I put it behind me, there has gotta be another way  
I'm losing my mind, looking for signs of a better day  
Maybe I just need a break

Ooh, I wanna feel there's something better  
But you, you drift away just like the weather

Sometimes I feel alone  
Lada-dadida  
Sometimes I feel alone  
Lada-dadida

I was waiting for closure  
I was tryna posture  
No one sees me now  
I am treading the pavement  
Like a renegade vagrant  
No one sees me  
Ooh, I wanna feel there's something better  
But you, you're never gonna give me shelter

Sometimes I feel alone  
Lada-dadida  
Sometimes I feel alone  
Lada-dadida
